THE new railroad is waking up the mossbacks of San Luis Obispo.

THE Chronicle has turned in, and is making it sultry for Br'er Bartlett.

GENERAL VANDEVER speaks in Salinas City to-night, and at San Miguel Saturday night.

SONORA is having a small-pox raid. It had to fill somehow the aching void left by Geronimo.

MAYOR BARTLETT opened his campaign with a bad break. His conviction was Swift and decisive.

AND now it is Br'er Lynch who gets in his work on the Associated Press. The dispatch from Bakersfield was a remarkably partisan swindle.

PROPHET WIGGINS'S earthquake at 2 o'clock yesterday afternoon did not come. Go up thou baldhead! We're not afraid of your bears.

WOMEN scorned have in time past thrown vitriol, but it was reserved for a Harvard College man to bring suit against his alma mater for vitriolizing him.

A FRENCH duel has left one of the principals "wounded four times and in a precarious condition." This would be incredible but for the explanation that an editor did it.

IT is declared that Mr. I. W. Hellman is quietly building a ladder whereby he may mount to the United States Senatorship. The Democratic County Convention was the first round.

CALIFORNIA Republicans have a grand man making the race for Governor. His name is John F. Swift, and he will make a brilliant record in the executive chair.—Albuquerque Journal.

The level-headed opinion of a man up a tree!

ENVOY SEDGWICK is reported as arranging for about $1,000,000 worth of libel suits. The Detroit Tribune remarks: "If he intends to sue every newspaper that has writ him down an ass he will find his time amply occupied for the rest of his life."

THE Herald crows over the fact that the Demokrat, a German newspaper of San Francisco, has flopped to the Democratic side, and our "esteemed contemporary is weak enough to think that it carries with it ten thousand votes. By the same token, the Abend Post, another German paper of San Francisco, has flopped to the Republican side. Very naturally, it carries the ten thousand votes back to the Republican side. A notable thing about the German element in the United States is that it assimilates more rapidly than almost any other foreign race. It does not take the Germans very long to acquire that degree of independence and individuality which precludes any man or newspaper from carrying them in the vest pocket.

THE Heath Amendment, which the Democrats denounce in their county platform, received in the Assembly nine Democratic votes, as follows: Ashe, Barrett, Britt, Clark, Corcoran, Gouchar, Gregory, McDonald and Morris. In the Senate the Democratic votes in favor of the amendment were twelve, as follows: Cox, Creighton, Cross, Dougherty, Drum, Foster, Johnson (of Sonoma), Kelly, Kellogg, Knight, Spencer (of Napa) and Taylor. The Heath amendment was in no sense a party measure, and the vote did not divide on party lines. To claim any credit for opposition to this amendment by the Democratic party is a mere piece of demagogy.

THE Washington Star remarks that every observant stranger who visits Wassington and explores the beautiful northwest quarter, must be struck with the fact that all the new statues in that part of the city face t ward the south, and wonder whether it is a simple coincidence or the result of design. The greatest work of McPherson, Thomas, Dupont, Farragut, and Scott was done in the south, it is true, but why should they, on that account, be immortalized in bronze as always going to their work and never coming home? The older statues in the same quarter and elsewhere do not face in the direction of the chief fields of labor or the most notable conquests of the heroes they represent. Mills's Washington faces the rising sun, Greene and Jackson the setting. Greenough's naked effigy of the Father of his Country faces the east doors of the Capitol. The Emancipation group in Lincoln Park face westward also. It would be easy to understand the theory upon which the two Washingtons, Greene, and the Lincoln of the Emancipation group face as they do, as they are consistent with the original plan on which the city was laid out, the Capitol building being the center and everything else tributary to it; but that this idea, even, was lost sight of more than a generation ago is evident from the position of Mills's Jackson, which turns its back fairly on the Capitol and extends to the White House only a passing salute. There is no objection, from an artistic point of view, to the position in which the newer statues stand; and perhaps, indeed, there is just a little of that principle of compensation involved in having the tide of migration among ordinary humanity all in one direction, and these monuments of extraordinary patriotism and genius all pointing in the opposite one.

Troop Movements.

San Diego Sun.]

Company I, First Infantry, is relieved from duty at San Diego barracks, California, to take effect on arrival of either Troop A or Troop K, Second Cavalry, and will proceed by water to Angel Island, California, and there take their station.

Troops A and K will be relieved from duty in the Department of Arizona, and will proceed to San Diego Barracks, California, and there take their station.

EASTERN EVENTS.

Wiggins's Prophecy Causes Much Consternation,

BUT IS NOT VERIFIED BY BIG QUAKES.

Proposed Changes in Appointments to the Civil Service—A Pension for the Widow of Dr. Pavy.

Associated Press Dispatches to the Times.

CHARLESTON, Sept. 29.—There has been no recurrence of earthquake shocks since 1 o'clock yesterday. The weather in Charleston to-day is mild and pleasant. The sun is shining brightly, the temperature is not oppressively warm, and the city is full of activity and hope in spite of Wiggins's prophecy. The signal officers here have received special bulletins from Washington to-day indicating no unusual meteorological phenomena, but instead, pleasant weather, with a probability of a shower of rain this afternoon. This day has been anticipated with a great deal of fear and trembling by hundreds of people.

CHARLESTON, S. C., Sept. 29.—Up to 7 o'clock this evening there has been no recurrence of earthquake shocks, and the city has quieted down. Wiggins's prediction has proven to be utterly without truth. There is a growing feeling of confidence in the city.

NEW ORLEANS, Sept. 29.—The weather here is delightfully clear and pleasant. There was no seismic, atmospheric or other disturbance or phenomena to-day such as Prof. Wiggins predicted.

GALVESTON, Sept. 29.—Up to noon there have been no signs of Wiggins's predicted disturbance in this section. The weather, which has been rainy and disagreeable for several days, to-day broke clear and continues pleasant. The thermometer registers 72 degrees.

SLIGHT SHOCK IN PENNSYLVANIA.

PHILADELPHIA, Sept. 29.—A special from Lancaster says that the people of the borough of Elizabethtown were badly frightened last night. About 11 o'clock two distinct shocks of earthquake were felt. The shocks followed in quick succession, and scarcely had the sound died away when the buildings swayed sufficiently to cause the doors and windows to rattle.

VOLCANIC TROUBLES, BUT NO QUAKE.

CITY OF MEXICO, Sept. 29.—Reports from all over the republic show that everywhere heavy rains have fallen, doing great good in forwarding crops. In this city rains have flooded the streets in many places, necessitating the use of fire engines to pump out stores. The predicted earthquake did not take place, but the volcano of Colima is again in a state of eruption, a huge white cloud overhanging the summit, causing great terror among the inhabitants of neighboring villages.

This is the third time within a year that this volcano has become active. The eruption is plainly visible from the city of Colima, on the Pacific coast, and unusual meteorological disturbances have been noted in that city.

WASHINGTON.

Changes in the Methods of Making Civil Appointments

WASHINGTON, Sept. 29.—The Civil Service Commission has been busily engaged for some time past in a revision of the rules and regulations referring to the civil service; and within a short time it is probable that a number of important modifications to the existing rules will be submitted to the President for his formal approval. The commission has changed the construction heretofore placed on the law and rules relating to the appointment of soldiers to the classified service by the issue of the following order:

"It is directed that upon any requisition being made by an appointing officer for eligibles to fill any vacancy in the classified civil service the certifying officer shall certify from the eligible register from which the eligibles are to be drawn the names of all persons who have a claim to preference to appointment under section 1754 United States Revised States; provided, however, that if there are upon said register the names of more than four persons who have a claim or preference, only four of them shall be certified in the order of their standing. If upon the register of the State entitled to appointment there are not preference-claiming eligibles entitled to certification, or if there are upon the register not enough names of preference-claiming eligibles, the certifying clerk shall complete the making of the certification by taking the names of preference-claiming eligibles from the registers of other States, taking care to select from such registers in the order of the right of each State to appointment under the apportionment authorized to be made by the commission. If, upon the register of no State entitled to appointment there is the name of a preference-claiming eligible, and the name of such an eligible appears upon a State the quota of which has been filled, the name of the preference-claiming eligible shall be certified."

Mr. Oberly said that it was in contemplation to arrange a definite schedule and places for holding examinations in the various States, thus relieving candidates of the doubt and frequent long delays which have heretofore existed. The commission, he added, had decided that it was not wise or economical to appoint examining boards from officers now in the civil service to examine and grade applicants in each State and Territory as suggested by the National Civil Service Reform League. Instead of this the board would submit to the President for his approval a plan to reduce the number of department examiners in this city from fourteen to six, and assign them entirely to the duty of going over the examination papers of applicants from all parts of the country, and grading them, thus insuring a uniform rating.

A PENSION FOR DR. PAVY'S WIDOW.

The Secretary of the Interior has reversed the decision of Commissioner Black on the claim of Sela May Pavy, widow of Dr. Octave Pavy, late acting assistant surgeon, United States Army, under contract with the Greely expedition, who died of starvation at Cape Sabine about June 6, 1884. She is granted $17 per month. The Secretary holds that though Dr. Pavy's contract had expired, he was still in the service.

DRAWBACK ON EXPORTED SUGAR.

WASHINGTON, Sept. 29.—The Treasury Department has issued the following circular to customs officers, in regard to the rate of drawback on dried refined sugar: "On all refined loaf, cut loaf, crushed, granulated and powdered sugar, stove-dried or dried by other equally effective processes, exported on and after November 1, 1886, a drawback will be allowed at the rate of 2.60 cents per pound, less the legal reduction of 1 per cent. The above rate is provisionally established in lieu of the existing rate of 2.82 cents per pound, pending an inquiry as to what further reduction may be necessary."

THE COMING NATIONAL DRILL.

It was decided to-night to offer $25,000 in prizes for the national military drill for all arms of the service, to be held here next May.

EASTERN POLITICS.

Prohibition Resolutions Passed by Massachusetts Republicans

BOSTON, Sept. 29.—The Republican State Convention met this morning. Oliver Ames was nominated for Governor on the first ballot.

The rest of the ticket nominated is: For Lieutenant Governor, J. L. A. Deschon; Secretary of State, H. B. Pierce; Treasurer, A. W. Bond; Auditor, Charles Ladd; Attorney-General, Edgar J. Sherman.

The following are the essential features of the platform:

On the subject of temperance it says: "Recognizing in intemperance a destroyer of manhood, a means of corruption in politics and a most fruitful source of pauperism and crime, we impregnatively affirm that both patriotism and philanthropy demand a most strict enforcement of the laws enacted to suppress this enormous evil. We pledge ourselves to support as a candidate for office no man who is afraid or unwilling to do his whole duty in enforcing the laws, and to favor at all times such further legislation as may be necessary to render the existing laws more effective. We favor submission to the people of an amendment to our Constitution prohibiting the liquor traffic."

"We fully maintain the principle of protection to American labor and American industries. We condemn the recent precipitate and peremptory treatment by the national State Department of our sister republic of Mexico, which caused the estrangement of neighboring powers with whom considerations both of friendship and self interest should have impelled us to cultivate more intimate relations. Sound currency, based on specie in conformity to the monetary standard of the world is of the most vital importance to all interests of the country. The continued coinage of silver dollars at the present rate is a constant menace to the stability of our finances. We again demand the repeal of the law which requires the further coinage of the debased money."

COLORADO REPUBLICAN NOMINATIONS.

DENVER, Col., Sept. 29.—On the third ballot the Republican State Convention nominated Hon. William H. Meyer for Governor.

For Lieutenant-Governor Hon. N. H. Meldrum was nominated, and for Congressman Judge G. G. Symes.

At the night session, the convention nominated Hon. D. P. Kinsley for Auditor; Alvin Marsh for Attorney-General; S. B. Cornell for Superintendent of Public Instruction, and Gen. W. Hammill for member of the National Committee, to fill the vacancy caused by the death of Hon. Jerome B. Chaffee.

The platform adopted was very brief. It reaffirms the principles of the Republican party as adopted by them during the past twenty-four years. It recognizes the Nation's obligations to the soldiers and soldiers of the late war, and bitterly denounces the action of the President in the wholesale veto of pension bills during the last session of Congress. It favors the tariff of 1867, and advocates a high tariff upon low-priced labor imported to America to injure American citizens. It demands the maintenance of the present tariff on lard and the free coinage of silver on an equality with gold. It favors the regulation of interstate commerce in order to prevent extortions by common carriers. It favors the adoption of some means to dispense with convict labor in our penitentiaries. It opposes the importation and immigration of Chinese to be used as laborers. It demands that all public lands shall be held for actual settlers only and not be sold. It favors the appointment of a national committee to arbitrate all questions in dispute between laborer and employer, and heartily indorses the action of the National Bi-Metallic Association in their endeavors to protect the silver interests of the country.

NEBRASKA REPUBLICANS.

LINCOLN, Neb., Sept. 29.—The Republican State Convention nominated John M. Thayer for Governor.

Formed a New Congregation.

ST. LOUIS, Sept. 29.—The trouble which, for some time past, has existed in the Jewish congregation of the Shaare Emith Temple, the wealthiest and most prominent synagogue of this city, finally has resulted in a disruption, to the extent that over a hundred members of the Shaare Emith have left the society, and organized another congregation, under the charge of the former rabbi of Shaare Emith, Dr. Sonneschein, and to-night they held their inaugural services. A large audience was present, and the services were quite impressive. The new organization embraces many of the leading and most progressive minds among the Jews of the city, and it promises to become one of the largest and most influential congregations in the west.

Suit Against Harvard College.

BOSTON, Sept. 29.—Francis R Brooks, of Chicago, formerly a student of Harvard College, has commenced a suit against the college to recover $50,000 damages. Brooks was engaged in performing an experiment in the chemical laboratory, when a retort containing sulphuric acid, which he was using, exploded, and he was terribly burned. One of his eyeballs was burned off, and his face was otherwise mutilated and torn, the disfigurement being permanent. It is claimed by the plaintiff that the experiment was being performed under the direction of a professor, and he supposed he was working in safety, and that through the carelessness of the professor in charge the accident occurred.

The Southern Iron Industry.

NASHVILLE, Sept. 29.—At a meeting of the stockholders of the Tennessee Coal, Iron and Railroad Company, held here to-day, the purchases by this company of the Pratt Coal and Iron Company, the Alice Furnace Company and the Linn Iron Works, of Birmingham, Ala., were consummated and confirmed. This action has brought together, under one management, probably the largest and most valuable coal and iron property in the world. This combination is a consummation of a scheme that marks a new era in the South, and shows the fact that pig iron will be made in Tennessee and Alabama at less than nine dollars per ton.

Masonic.

WASHINGTON, Sept. 29.—The Grand Chapter of Royal Arch Masons held a short session, this morning, and in the afternoon called in a body, accompanied by their ladies, at the White House, and were given a reception by the President. To-night, they were given a banquet by the Grand Royal Arch Chapter of the District of Columbia, at Masonic Temple. About 350 ladies and gentlemen attended the banquet. Senator Dolph of Oregon responded to the toast, "Free Masonry." At to-morrow's session of the General Grand Chapter the election of officers will take place.

The Carson Mint.

WASHINGTON, Sept. 29.—Acting Secretary Fairchild has authorized the reopening of the Mint at Carson City, Nev., as an assay office for the receipt of deposits of bullion. This action was taken on the recommendation of the director of the Mint and with the full approval of the President. It is intended as an experiment, as it is said at the department that it is doubtful whether deposits at the Mint will warrant even its continuation as an assay office. Its future operation as a coinage mint will depend altogether upon the extent of its deposits.

Illinois Liquor Dealers.

SPRINGFIELD, Ill., Sept. 29.—The State convention of liquor dealers to-day adopted the report of the Committee on Resolutions, which declares the liquor business legitimate and recognized as such by the State Constitution and that it should not be especially loaded down with restrictions and regulations, that efforts should be made to secure a repeal of the dram-shop act, and that the association should support only such men for office, irrespective of party, as have shown themselves to be in favor of personal liberty.

Judge McNeely's Successor.

SACRAMENTO, Sept. 29.—Governor Stoneman has appointed John B. Works Superior Judge at San Diego, vice McNeely resigned. Works is a Republican.

Bulgaria Grows Defiant Towards Russia.

ANOTHER RELIGIOUS RIOT IN BELFAST.

The Fighting Editor of a Paris Paper Earns His Salary—Notes From Chile and Japan.

Associated Press Dispatches to the Times.

SOFIA (Bulgaria), Sept. 29.—The regency has posted notices of the election for the Grand Sobranje, which is to elect a successor to Prince Alexander. Gen. Kaulbars, the Russian special agent, threatens to have the notices removed. The people resent the conduct of Russia in demanding, as the price of the Czar's protection, liberation of political prisoners, the raising of the state of seige, and freedom for all parties to vote in electing the Grand Sobranje. It is believed that a rupture between Bulgaria and Russia is imminent.

RELIGIOUS RIOTS IN DUBLIN.

BELFAST, Sept. 29.—There was desperate fighting to-day between Protestant and Catholic workmen at Harbour's foundry in this city. The police interfered, when the fighters joined forces and stoned and routed the police. Cavalry was summoned and charged upon and dispersed the mob. A great number of rioters and several policemen were injured.

PARIS, Sept. 29.—China intends to issue a loan of $50,000,000 for the construction of a railway in the empire.

FOUGHT A DUEL.

PARIS, Sept. 29.—A duel was fought to-day at Montpelier, between M. Gariel, an editor, and Capt. Valicourt of the French army. A quarrel over an editorial criticism upon certain features of the army maneuvers was the cause. Capt. Valicourt was wounded four times by the editor. His condition is precarious.

LORD MAYOR OF LONDON.

LONDON, Sept. 29.—Sir Reginald Hansen has been elected Lord Mayor of London.

CHINA AND JAPAN.

Murdered by Brigands—A Horrible Execution—The Cholera.

SAN FRANCISCO, Sept. 29.—The steamer City of New York arrived at 10 o'clock this morning, bringing Hong Kong dates to September 2 and Yokohama dates to the 11th.

On the morning of August 13 a band of brigands made a descent upon the leading pawnshop of Huchong, murdered the proprietor and forty-seven of his employés. The robbers were all arrested.

Cholera is still raging throughout Japan. The proportion of deaths to cases is very heavy. Between August 28 and September 5, inclusive, nine days, 13,348 new cases were reported. The deaths during the same period were 8472. In Tokio alone there were during the nine days 2352 new cases. Over 63 per cent. of those attacked died. An examination of the wells in Tokio was made, and 740 out of 1177 were condemned as unfit for drinking purposes.

At Canton on August 27th a Chinese woman, aged only eighteen, underwent the "ling chis" execution, which is that while still living one piece of the body after another is cut away until the body is divided up into exactly one thousand pieces. The victims, as in this case, always die from loss of blood before the horror is completed. The woman was charged with having poisoned her husband and three relatives, and although it was shown on examination that she was innocent of the offense the people of the district insisted on her execution which the Viceroy finally ordered.

Bohemian Catholic Union.

ST. LOUIS, Sept. 29.—The Bohemian Catholic Union, No. 1, of the United States, met here to-day in its tenth annual session. The delegates, numbering a hundred, are from twenty-four States and three Territories. The union will hold sessions all the week. The president's report shows that the unions throughout the country are in a harmonious and prosperous condition. The secretary's report states that the receipts of the union for the year were $47,000, and the expenditures $45,000.

A Change of Base.

ST. LOUIS, Sept. 29.—Robert Law, superintendent of the leased lines of the Chicago, Burlington and Quincy in Iowa, will retire from that position to-morrow and will temporarily be succeeded by C. M. Levy, assistant superintendent of the same lines. It is reported that Mr. Law will hereafter occupy an important position on the Milwaukee and St. Paul road.

The Cattle Epidemic.

CHICAGO, Sept. 29.—Heretofore there have been no cattle quarantined except in the distilleries and at the Harvey farm. Now the authorities are going to all points near and far in the State where there are suspected cases or cases that have been exposed. To-day in the vicinity of the Harvey farm couples and trios to the number of forty, that have been exposed to the pleuro-pneumonia, are quarantined.

The Salvation Army.

TORONTO, Sept. 29.—The Salvation Army festivities in Canada with General Booth's visit here were continued to-day. A grand street parade was held this afternoon in which 2,500 officers and soldiers took part. This was followed by a banquet in the Temple. Gen. Booth in an address said that the members of the Army adapted their methods to local circumstances.

The Fishery Investigation.

BOSTON, Sept. 29.—The members of the United States Senate Committee, appointed to investigate the subject of fisheries, left Boston for Wood's Holl this morning, in order to visit the fish commission and make a note of the work done there. A quorum of the committee not having arrived in Boston, the formal opening of the hearing is not yet announced.

No Race.

MARBLEHEAD, Mass., Sept. 29, 10:30 a. m.—The international race has been agreed upon. The Mayflower and Galatea have left for the starting point.

MARBLEHEAD, Sept. 29, 12:40 p. m.—The wind is from the north and is not now so fresh, and there will be no race to-day after all. The yachts are returning.

Sheridan at Fort Leavenworth.

LEAVENWORTH, Kan., Sept. 29.—Gen. Phil Sheridan arrived at Fort Leavenworth to-day, and will present the medals awarded to the successful contestants in the rifle team to-morrow. He will remain at Fort Leavenworth till Friday.

A Superb Block.

The plans are about completed and the contract will be let at once for the Witmer block, corner of Second and Fort streets. It will be, when completed, one of the most attractive buildings in the city, being four stories, with elevator and all modern improvements. It will cost $70,000 to $80,000.

A Christening.

The infant daughter of Mr. and Mrs. W. A. Clinton was christened at the cathedral yesterday afternoon at 3 o'clock. The godfather and godmother were the Baron and Baroness Bogniat. A pleasant time followed. The TIMES acknowledges a memento of the occasion.

A Veteran's Death.

Stephen F. Barrett, aged about 45, died at the Sisters' Hospital yesterday. He was a member of Company B., 26th Massachusetts Volunteers. He will be buried at 8 to-day by Stanton Post.

A FIERCE FIRE.

The Vienna Garden and Other Structures Burned.

At 1:15 this morning an alarm of fir called a growing multitude to the corner of Spring and Third streets, with a brilliant blaze to guide their footsteps. The old Vienna Garden was burning like an oil tank, the flames being confined to the rear end, when the fire-boys and the reporters arrived. There was considerable delay in getting water, however, and the flames spread very rapidly toward Spring street. The fact that the front half of the old shell was covered with a tin roof was all that saved the neighborhood of frame buildings from swift destruction. Within ten minutes the building had mostly fallen, the gallant firemen having several narrow escapes from the sudden avalanches of fire. The flames worked resistlessly forward, and soon the whole Spring street front was in a blaze. The carpenter shop of E. F. Morehouse next south (No. 146) was rapidly licked up, with most of its contents. The next building, a one-story cottage occupied by Guadalupe Pera, seemed doomed, but was saved in a severely singed state. The block of wooden residences on Third street, and the Lorrain dye-house next north of the rink, were saved by hard work and good luck.

The rink was erected several years ago. The lumber was furnished by J. M. Griffith & Co., and was never paid for. J. C. Bell held the agency for the creditors. Waldron, the carpenter, put up the building. The fire ordinance compelled an expensive iron roof to be put on, when spread the building, and then iron rods had to be put in to stay it. There were eighty uniforms burned which belonged to the Young Men's Republican Club and were worth $3.50 apiece, and a lot of flamboyant torches. The entire loss is probably about $3,000 including shop and rink.

AMUSEMENTS.

GRAND OPERA HOUSE.—The performance of *H. M. S. Pinafore* as rendered by the Pyke company last evening may be ranked perhaps as the least successful of their efforts here, which on the whole have been quite meritorious. Some allowance must be made for the fact that Mr. Pyke had not recovered from his severe cold; but, with the exception of Mr. Keene's "Deadeye," which was capital, the company seem hardly qualified to do full justice to the exigencies of their respective roles in this the most famous of all Sullivan's successes as a composer and of Gilbert's eccentricities as a librettist.

The house was moderately well filled, but the audience was singularly unenthusiastic, which must have had a dampening effect upon the performers. To-night *La Mascotte* will be given for the last time.

More Tourists.

The following sizable Phillips' excursion arrived yesterday:

For Los Angeles—F. L. Stroat, E. L. Rawson, C. L. Carter, Dr. R. L. Block, C. Haas, wife and child, Rev. J. A. Wood, wife and daughter, Mrs. L. H. Borden and daughter, B. Risley and wife, C. E. For Santa Cruz—Mrs. E. Fitch.

Berdoo Bourbons.

Following is the San Bernardino county Democratic ticket:

Assemblyman — Hiram M. Barton, of Old San Bernardino.

Sheriff—John A. Cole, of Colton.

Clerk—Frank Volk, of San Bernardino.

Recorder—John A. Wilber, of Riverside.

Auditor—W. P. Cave, of San Bernardino.

Collector—T. W. McIntosh, of Colton.

Assessor—F. M. Johnson, of San Bernardino.

Treasurer—J. D. Glover, of Lugonia—Prohibition candidate.

District Attorney—A. B. Paris, of San Bernardino.

Superintendent of Public Instruction—H. C. Brooks, of San Bernardino.

Coroner—Dr. Bene, of San Bernardino.

Public Administrator—F. M. Towne, of San Bernardino.

Surveyor—A. C. Haughey.

Not Guilty.

Ah Mong was tried yesterday in the Superior Court, before Judge Cheney, on the charge of having committed the infamous crime against nature. Mong was arrested last April on the complaint of Alfredo Arguello, and has been out on bond since. He was defended by Stephen M. White, and it just took the jury five minutes to return with a verdict of acquittal. The defendant, who was a decrepid old man, was very much elated at the result. He is a vegetable peddler in San Antonio township.

Court Notes.

Judge Cheney yesterday dismissed the second information against Charles Gassen for knowingly buying stolen cattle, a conviction having failed to be obtained under the first. The case of Katz was continued for the session.

Justice Austin yesterday dismissed Henry Dorsey, charged with battery, and J. J. Connaughton, charged with grand larceny.

The City Hall Hole.

"There is one thing about it," said Councilman Cyrus Willard, in conversation with a TIMES representative, yesterday, "and that is, the city will lose nothing on the 'city hall hole.' There has been a great deal of kicking about it, and talk about loss of money, and all that. But that lot will sell for more to-day than if that cellar were not dug. You mark my words."

A Sad Case.

Dr. George W. Lasher, who was well known and well liked in Los Angeles, left here for the East several months ago. At Niagara Falls he injured his left knee slightly. Inflammation set in, and for a time it was believed that the leg would have to be amputated. He is now in the Mt. Sinai Hospital, New York, and is believed to be dying.

The Turtle.

William Tuttle, the chronic drunk, who has given trouble to the city courts as Tuttle alias Turtle, got out of jail yesterday after a long sentence. He signed an iron clad abstinence pledge in the police office, and agreed to work in the chaingang *ad lib.* if ever he should get drunk again.

The Library Renovated.

The City Library was reopened yesterday morning after having been thoroughly cleaned and renovated throughout. Everything looks spick-span. Some new improvements will be made soon in the room, to the increased comfort of its visitors.

Baptist News.

The ladies of the Central Baptist Church will give a reception to Rev. W. H. Pendleton and family, at the residence of J. Perceival, 743 South Hill street, on Friday evening, October 1st. The members and friends of the church are cordially invited to attend.

Postoffice Change.

After October 1st Beaumont will be the name of the postoffice in place of San Gorgonio, San Bernardino county.

San Luis Obispo County on a Big Boom.

IN ANTICIPATION OF THE RAILROAD.

The State Legislative Conventions Grinding Out a Grist of Candidates—Sproule Must Swing—Notes.

Associated Press Dispatches to the Times.

SAN LUIS OBISPO, Sept. 29.—The coming of the Southern Pacific Railroad is working great changes in San Luis Obispo county. The slow-going old settlers are opening their eyes to the benefits which will follow the advent of the road. The construction train reaches San Miguel Saturday, and will pass Paso Robles and reach Crocker during the month of October. Crocker, being in the center of these ranches now rapidly settling in small sub-divisions, will get a big boom from the start as it will also be the terminus for at least six months. The next point being through Moro Pass, the Paso Robles ranch is selling rapidly at very low prices, but satisfactory to the owners. Ground was broken to-day in Crocker for a hotel, livery stable, postoffice, express office, butcher shop and drug store. The maps of the town are not yet out, but ten lots were sold yesterday, corner lots bringing $250 each. The surveyors are setting the grade stakes across the Paso Robles ranch. The county will be asked to build a bridge across the Salinas and Crocker, and probably at Paso Robles. No further resistance is offered to the right of way, and the way is clear for the next twenty miles.

STATE POLITICS.

More Candidates for the State Legislature.

SAN FRANCISCO, Sept. 29.—H. L. Gude was nominated for Senator by the Twenty-sixth Senatorial District Republicans, last night. Z. T. Whitten was nominated for Assemblyman by the Forty-sixth Assembly District.

SACRAMENTO, Sept. 29.—The Democratic County Convention, yesterday, nominated Fred Cox for Senator, and N. Greene Curtis, J. G. Davis and Charles Deterding for the Assembly. When the convention reconvened, to-day, Cox and Curtis declined the nomination.

SAN FRANCISCO, Sept. 29.—J. Le Blanc was nominated, this evening, by the Republicans, for the Assembly from the Forty-second District.

AUBURN, Cal., Sept. 29.—The Democratic County Convention nominated J. W. Austin for Assemblyman.

BISHOP CREEK, Cal., Sept. 29.—The Republicans made the following nominations for Inyo county to-day: Sheriff, A. K. Briggs; Assemblyman, A. J. Gould.

RED BLUFFS, Cal., Sept. 29.—The Democrats of Tehama and Colusa counties in joint convention to-day nominated John Boggs of Colusa county for Senator by acclamation.

HOLLISTER, Cal., Sept. 29.—The Republican Convention of San Benito county to-day nominated for Assemblyman Thomas Flint, Jr.

BAKERSFIELD, Cal., Sept. 29.—The Democratic campaign was opened here to-night by Jos. D. Lynch, candidate for Congress. It was the largest audience and the most enthusiastic meeting held for many years. Mr. Lynch spent the day examining the irrigation system, and complimented Kern county highly. He spoke of his devotion to Southern California, and referred to its rapid development. He said he would labor for the interests of the whole section, and see that the southern part of the State got her full share of recognition at the hands of Congress. He declared himself thoroughly in favor of the public school system, and referred to his newspaper as a proof of his assertion. W. R. Jacobs, of Tulare, followed Mr. Lynch in an hour's speech.

San Francisco Notes.

SAN FRANCISCO, Wednesday, Sept. 29.—There are on the way west from Chicago eighty carloads of ice, which it has been found necessary to purchase there to supply the market on this coast. Special trains of fifteen or more cars each are made up and loaded with ice at Crystal Lake, some sixty miles from Chicago. The ice is purchased by the Union Ice Company of this city.

Thomas Curley, an ironmoulder, aged 24, while on his way to the Western Hotel on Broadway street, near Sansome yesterday morning, was assaulted, beaten and robbed by four men. He died from the effects of his injuries this morning. The assailants of Curley are unknown. Detectives are investigating the case.

Sproule Must Swing.

WASHINGTON, Sept. 29.—Sproule, the American, who was convicted in British Columbia of murder, and whose sentence to death was suspended pending an appeal to the courts at Ottawa, and afterwards to the Privy Court of Great Britain, will probably be executed on the 1st of October, the date to which he was respited. The State Department has exerted itself in his behalf, but has to-day been informed from London that the representations on Sproule's behalf have not been considered sufficiently weighty to overturn the verdict or longer postpone the execution.

Notes from the Border.

NOGALES, A. T., Sept. 29.—Richard Hubbard, a mining expert, arrested a few days since charged with criminal assault on a Mexican girl, has been discharged, there being no evidence against him.

The smallpox scourge in Sonora is decidedly alarming. Many people are hurrying out of that country. The disease is confined to the southern part of that State, principally from Hermosillo to Guaymas. The disease seems to be confined exclusively to Mexican people. Most cases, especially those of old persons, prove fatal.

The San Jose Races.

SAN JOSE, Sept. 29.—At the fair, today, the running race, mile heats, was won by Moonlight, who took second and fourth heats. Cleveland won the first heat, and ran a dead heat with Moonlight in the third. Time: 1:43, 1:43½, 1:47½, 1:47.

The San Jose stake, seven-eighths of a mile, for two-year-olds, was won by C. H. Todd beating the two-year-old record a quarter of a second.

The mile and an eighth dash was won by Laura. Time, 1:57½.

A New Charitable Association.

SAN FRANCISCO, Sept. 29.—A number of prominent ladies and gentlemen, representing the charities of California, have issued a circular calling for a meeting to be named the "Pacific Coast Annual Conference of Charities, to be composed of persons through out the Pacific Coast interested in charities and reform. The conference will be held in San Francisco, commencing December 9th.

Fire at Salt Lake.

SALT LAKE, U. T., Sept. 29.—One of the worst fires ever in this city occurred last night. It burned Coulter & Snelgrove's music store, damage $8,000, no insurance; H. Pembroke's stationary store, next door, loss $17,000, insurance $5,000. It also damaged Dwyer's stationary store, Solomon Bros. and Gold & Davis's grocery stores. Total loss, about $35,000; insurance, not over one third.

Elected Bishop.

CENTREVILLE, Md., Sept. 29.—Rev. J. H. D. Wingfield, missionary bishop of Northern California, was to-day elected bishop of the diocese of Easton, to succeed the late bishop. Dr. Wingfield is the fifth selection that has been made, the others having declined.

Sensible Talk.

Orange Tribune.]

The Apache war is ended—so it is said. Geronimo is in durance vile, and the captured tribe has been placed on a reservation in Florida. Gen. Miles is a hero, and has been treated to many highly complimentary resolutions regarding his wonderful sagacity in Indian affairs. This possibly does no harm, but to "a man up a tree" it looks rather "thin." Gen. Crook is an Indian fighter of long experience, and a man of many soldierly qualities. He was placed in command in Arizona, and vigorously chased old Geronimo and his little band, and occasionally shot at them. He followed them day and night, with nearly the whole of the United States army, and although they were long-winded and exceedingly tough, they got tired and very hungry. About this time the powers that be at Washington conceived the idea that Gen. Crook was not the man for the place, and sent Gen. Miles to take his place. Gen. Miles took up the trail and continued the chase, and in a very short time the little handful of Apache murderers gave our and surrendered—putting in a clause in the terms which will probably save the leaders from having their necks stretched. Gen. Miles is lauded to the skies as the big Indian fighter, and Crook stock is down below par. Such is life. But isn't it rather ludicrous to think that the United States Army was months and months in capturing a tribe of Indians so few in number that the whole outfit, when captured, men, women and children, with all their plunder, filth, vermin and dogs, were placed in three oe four box-cars, and one engine pulled them clear out of the country, and the people speeded their parting with cheer after cheer for Miles and his invicibles.

Flat Robbery.

An item going the rounds of the State press is designed to rob Los Angeles of due literary credit. The Oakland Enquirer has this version of it:

"A girl graduate of an Eastern college has demolished another of the cherished idols of history in an essay vindicating Xantippe, the wife of Socrates. She argues from admitted facts that Socrates was a dusty, fusty old pedagogue, who would rather sit up all night with an argument than respond to a summons to dinner. She was neat, and he unkempt and untidy, and it was only a just punishment of his aggravating conduct to have the pail of slops poured on his head. Nevertheless, the world will give up Socrates, if it has to, with regret, and we hope some advocate will come forward to defend him before his case goes to the jury."

Now, as a matter of fact, this essay was written by Miss Maggie E. Thompson, of Los Angeles, and was by her delivered at the commencement exercises of the Los Angeles High School, on the 24th of last June. No Eastern girlie shall be permitted to steal Maggie's thunder.

Shooting Affair at Barstow.

San Diego Union, Sept. 25.]

Edward Burt, the California Southern telegraph operator at Barstow, fired five shots from a revolver at an Atlantic and Pacific conductor, named Francis, yesterday. The trouble arose from a dispute about a message. The quarrel began in the telegraph office, but Burt pursued the object of his revenge pretty much all around the premises before the revolver could be taken from him. Burt worked at San Diego last winter, during the absence of Operator McGarvie. He has been placed under arrest. R. Brand, of this city, left last evening to take the office at Barstow.

Somewhat Late Again.

THE TIMES asks its readers to bear with it a little through the tribulation s incident to a broken-down engine. On this account the paper was late yesterday morning, and may be late again to-day, but we hope not. We trust that when the new twenty-horse-power outfit shall have been brought into requisition these vexatious breaks will not occur.

Mr. Lynch, in the Abstract.

The Herald of Tuesday morning, in a column editorial, makes a milk-and-water defense of its flamboyant candidate for Congress. The Herald is too mild to be convincing. Let us grant (for the sake of obviating a good deal of flapdoodle) that Lynch, as an editorial whooper-up of the g. o. of C., has been a great success. He has undoubtedly written many columns of biggish language, extolling the air, the water, the soil, the grapes, the pumpkins, the corn, the horses, the mules, the men, the women and the babies of Southern California. So mote it be.

But it is not on this score alone that Lynch is to be considered. When anybody is placed in nomination for a high official position — when he assumes to represent a constituency in the National Congress—that constituency have a right to take his measure as a man. What is Mr. Lynch's measure? How great in the girth we know; but how *high* does he stand? "Aye, there's the rub."

In his article of Sunday the TIMES glanced at some of the foibles, some of the shortcomings and some of the turpitudes of the robust and virile Democratic candidate. His arrant egotism, his subordination of principle to policy; his truckling to the rich in high places, and his disregard of the rights of the many—these are but indices from which to gather a passing idea of the contents of the volume of Lynch.

Here we have a man who has attained probably the age of forty-five. His whole life has been one of selfish gratification. Tell us of a single act of public beneficence that he has ever performed; of a single self-sacrificing devotion to the cause of justice. He has not even been stirred by the common impulse of mankind to marry a wife and rear up a family about him. What his private life has been we do not propose to illustrate with Police Gazette pictures. Suffice it that it has been quite of the ordinary sort—for a bachelor of forty-five. Let us grant him at least the credit of consistency, for he has published in the columns of his newspaper more than one elaborate defense of licentiousness, quoting with relish the French saw, "The greater the rake the better the husband." These be plain facts and little garnished with soft phrases, but let him deny them who can.

Is this man representative of the people of the Sixth Congressional District of California? God forbid! If all were such as he, what would become of the marriage tie and all the sacred relations of family? Voters of the districts—men, fathers, aye! and mothers, too, think of these things, and ponder well whether you wish to set up as your exemplar and representative a man who so lightly esteems all social ties!

Is Walter Moore a Fit Man?—Special Session Number One.

It is not a pleasant thing for a Republican to bolt a Republican ticket. It will likely not contribute much to his social and political advancement. Still there are occasions when a man must do his own thinking, and act accordingly. Such occasions are when the nominee of his party is personally unfit for the office he seeks. Is Walter Moore a well known fact? Ques-

to-day heads the State ticket has not a manly example in this respect. It is always distasteful, too, to a decent newspaper to deal with the personal sins of ottiseus—but that also becomes sometimes a duty.

The TIMES opposed the nomination of Walter B. Moore for Secretary of State. To-day it opposes his election to that office. It stated its objections in good faith; and instead of weakening, these objections are being fortified daily. It has stated that one of the reasons why he should not be made Secretary of State is his lack of business qualification. In support of this position it published remarks made by Chancellor Hartson. The Express and Moore's other friends attempted to deny the authenticity of these remarks, but failed. They also failed to get Mr. Hartson's disavowal of such remarks or such sentiments. As a matter of fact, the TIMES has in Chancellor Hartson's own handwriting the charge against Moore of "carelessness and inattention to the duties of his office" as Deputy Revenue Collector.

A further ground of opposition has been defined in Moore's moral and social unfitness for one of the most dignified offices in the State. To those who live in Los Angeles, no elaboration of this charge is probably necessary; Some up-country papers, however, are calling for specifications; and the Express insinuates that none are or can be made. The TIMES, therefore, in all good faith and with full responsibility, purposes to begin the presentation of specifications.

At Tuesday evening's Swift meeting Mr. Moore, called forth by an organized *claque*, and cheered by his strikers, who were judiciously stationed through the crowd, uttered a speech, in the course of which he made a risky challenge. He uttered statements which fully justify the TIMES in producing the facts that follow in this article. Let these facts speak for themselves.

Upon a certain evening, which is sufficiently defined at present by saying that it was about the middle of last November, the unsavory apartments over Bob Eckert's saloon on Court street were the scene of an orgie such as even the most salacious pen of ancient Rome never dared describe. The TIMES will not attempt to describe it, but will give only the most prudent and decent skeleton possible. The actors were Walter S. Moore and three male companions who are as well-known as he, with four common prostitutes. Entering those rooms at 9 p. m., their orgie was not ended at 8 a. m. next day. At that hour the scene there was one of absolutely sickening bestiality. The four drunken male brutes and three of the four drunken female brutes were sprawled, almost nude, all in most atrocious attitudes, about the front room. The fourth female was in another room. The negro waiter was stretched stupid upon the floor, surrounded with a halo of the fifty-eight champagne bottles which the party had emptied, while the man who now asks your suffrage for Secretary of State, almost stark nude, was endeavoring to arouse the waiter to go and get a photographer for an obscene purpose.

That is one way to respect and honor one's family. These are bare, unmalicious facts. Let Mr. Walter S. Moore now give the TIMES a chance to lay the whole thing bare in a court of justice! We still stand ready to meet the threatened libel suit.

A DELEGATE to the recent Native American Convention at Fresno says that half the Democrats in that mossgrown bailiwick have joined the new Know-Nothing movement. They have even carried the craze to the extent of nominating a full county ticket with all Native American names in it, except that of an old Dane, who is the most bitter Know-Nothing of them all. It might be well for our Democratic brethren to "look a leetle oudt." The Native American movement may be a torpedo under the prow of their boat, which, all unawares to them, is making ready to blow them into smithereens. The South was the very hot-bed of Know-Nothingism in its former days of popularity, and a good many of the old-time Southern Democrats take to it now, as a duck takes to a zanja.

We've Got 'Em on the List.

As upon November second some victims must be found,
We've got a little list! We've got a little list!
Of political offenders who will certainly be downed,
And who never will be missed, who never will be missed!
There's Bartlett the stalwart of dollar-limit head
Who hankers to be Governor, unconscious that he's dead;
And there is Dictionary Lynch, to Congress he aspires,
But when he gets there it will be when water lights the fires;
Upon his pollysyllables we'll take a double twist,
He never will be missed! He never will be missed!

CHORUS:
We've got 'em on the list! We've got 'em on the list!
And they'll none of 'em be missed! They'll none of 'em be missed!

There's Stevie White for Senator, he never will arrive,
We've got him on the list! We've got him on the list!
He's Hazarding his chances just as sure as you're alive;
And he never will be missed! He never will be missed!
The name of their sweet-scented Rose, whom Edwards will suppress
By something like a thousand votes, if we know how to guess.
And as for their Assemblymen, the victims will be three—
McGinley, Eaton, Norcross too, as sure as sure can be,
We'll paralyze 'em at the polls with many a ballot fist,
And they'll none of 'em be missed! They'll none of 'em be missed!

CHORUS.

And likewise Jimmie Kays, who wants to be the Sheriff hard,
We've got him on the list! We've got him on the list!
We'll throw him down and tie him down and put him under Gard,
And he never will be missed! He never will be missed!
There's Alphabetic Smith, whose gall aspires to County Clerk,
And Rosecrof for the Treasurer—they won't get in their work,
And Waldron for Recorder, Preuss for Auditor likewise,
And all the rest who made a fight to get the empty prize,
Each one will be severely left—on that we will insist—
And they'll none of 'em be missed! They'll none of 'em be missed!

CHORUS.

Too Well Known.

To the Editor of the Times—SIR: Some of Lynch's adherents are striving to create the impression that Gen. Vandever is but little known. It seems that the General, upon his return home from Los Angeles, where he received the nomination for Congress, was well enough known to receive an ovation from his people, irrespective of party. When Lynch came back to Los Angeles from the nominating convention at San Francisco the people of the city, where he had been editing a paper for some ten years, didn't estimate worth a cent. The "virile and robust nominee" was left "all alone in his glory," and had no alternative save to seize his little grippesack and "go it alone." There was not even an obscure Democrat to welcome his coming, although the telegraph had announced the approach of this ambitious stranger. Is it possible that a man may remain so long and be well known? QUES.

THAT PEE.

"Jayhawker" Tests How Much Earnest it and Get In.

Correspondence of the TIMES.

SAN FRANCISCO, Sept. 28.—I would not like to say that all liars are Democrats, but I think it nearly safe to say that all Democratic editors are liars, and generally blundering liars at that. They have no elegance, system or consistency about their lies. I suppose they lie because they cannot help it, the truth not being in them. They are fond of telling campaign lies and then persistently repeating them, after it has been proven that they are lies. It may be that Republicans do a great many things which are worse than those that Democratic editors charge them with doing, but no great seems to be the disposition of these editors to lie that they will refuse the truth when they could pass it at par, and accept a lie at 75 off.

I have been amused in noticing in active circulation one of the regulation Democratic lies, which charges that sometime away back in the seventies Hon. John F. Swift volunteered his services to assist in defending the city against an attempted raid of the Spring Valley Water Company; that he agreed to do all this for nothing, and that after having thrust himself upon the city and successfully conducted its law suit, he forced the city to pay him the modest sum of thirty thousand dollars for his services. This would leave the impression, if true, that Mr. Swift is a successful bulldozer, and the sort of a man who would be able to protect the State against all kinds of improper raids, and also have pay for any legitimate services he might render. But it is a notorious fact that, aside from furnishing the legal knowledge and ability which saved the city more than a half million dollars, the credit of the payment of the costs and attorneys' fees in this case belongs entirely to our Democratic brethern in this city. The facts in this case, are a matter of public record in this city, and are notoriously as follows:

The Spring Valley Water Company presented a claim against the city for nearly six hundred thousand dollars as compensation for extraordinary quantities of water delivered over and above their contracts. The Board of Supervisors of San Francisco was then Democratic, the chairman being Mr. Fred Gibbs, then and now an honorable, intelligent and responsible business man in this city. When the claim was presented, the Board was thunderstruck. The amount was large; there was no money in the treasury to meet it if the claim was just. They concluded to ask for volunteer legal advice outside of the attorney whose duty it was to furnish them with information on all legal points. The city's attorney informed them that the corporation was liable for the claim; quite a number of legal gentlemen whose opinions they sought agreed with the City Attorney, and Mr. Swift was the only lawyer who told them that a proper construction of their contract would relieve them of all liability under this claim, and that he had no doubt but what if they would contest they would beat the water company. After considerable deliberation and discussion, Mr. Gibbs made the proposition to Mr. Swift that if he, Swift, would undertake the defense of the suit that the city would pay the incidental costs if they did not exceed five thousand dollars, and if it lost the suit that Mr. Swift was to receive no compensation whatever for any services that he might render in the case, and that if the costs, other than attorney's, fees exceeded five thousand dollars the city would pay their part in excess of that amount. But it was further agreed that if he was successful in the suit and defeated a portion of the demand amounting to $250,000, which the Board believed to be an unjust claim, that they would pay him a sum equal to 10 per cent. on the $250,000. So confident was Mr. Swift of the correctness of his view of the law in the case that he accepted the offer of the Board and went to work. The case was carried through all the courts, but upon every point Mr. Swift was victorious. During the litigation J. Henley Smith, then and now a well-known Democratic politician of this city and a man whose personal integrity of character has never been called in question, succeeded Mr Gibbs as Chairman of the Board of Supervisors. When the suit was concluded the board discovered that they had no authority, under the charter, to pay Mr. Swift for his services; and the Democratic Board of Supervisors of the city and county of San Francisco went before the Legislature and asked for the passage of a law which would authorize them to pay the attorneys in this case such a sum of money as the board might deem reasonable and just. No amount was stated in the bill, and the Legislature passed it just as it came from the board itself. It is true that Mr. Swift was in the Legislature and voted for the bill. Had he voted against it, and afterwards accepted the money, there might have been some reason to complain of his conduct. But, certainly, if any man knew the justness of the proposed measure, he did. After the bill became a law, the Democratic Board of Supervisors, without the slightest hesitation, appropriated the sum of twenty-five thousand dollars in payment to Mr. Swift for his services in the case.

It is a little surprising to me that the Republican press in this part of the State has taken so little interest in this matter, and that it has left to the TIMES correspondent the work of looking into the records and first giving to the public what the real facts are; and I suppose by the end of the week that Mr. Gibbs and Mr. J. Henley Smith will feel called upon to publish cards vindicating themselves. If there was anything wrong about this payment, they are the gentlemen who are responsible for it. But I think they will look in vain for any retraction on the part of the able Democratic editors who have been so industriously circulating this campaign lie. JAYHAWKER.

Not for Joe.

The Phœnix (Arizona) Herald contains this interesting piece of information:

For a long series of years Joseph D. Lynch, editor of the Los Angeles Herald, has struggled to build up a good newspaper and kept himself as a result poor, very poor, but honest. As a reward the community, that by his hard labor he has built up about him, has seen fit to nominate him for Congress, thus jeopardizing his reputation as an honest man, and should he be elected, destroying it.

Poor and honest, as applied to Joseph D. Lynch! They may do down in Arizona, but we have outgrown the border interpretation of these terms.

The Bravest Battle.

The bravest battle that ever was fought!
Shall I tell you where and when?
On the maps of the world you will find it not;
'Twas fought by the mothers of men,

Nay, not with cannon, or battle-shot,
With sword, or nobler pen;
Nay, not with eloquent word or thought,
From mouths of wondrous men.

But deep in a walled-up woman's heart—
Of woman that would not yield,
But bravely, silently bore her part—
Lo, there is that battle field!

No marshaling troop, no bivouac song;
No banner to gleam and wave!
But, oh! these battles, they last so long—
From babyhood to the grave!

—Joaquin Miller.

A Word to Brother Marcus.

Petaluma Argus.]

The Post says that Marcus D. Boruck has formally announced that he will be an independent candidate for State Senator from the district in which he resides. How men and times do change! We remember a few years ago how unmercifully Mr. Boruck scored Mr. Estee for being a bolter. Brother Boruck, is it not better to suffer the ills that we have than fly to those we know not of?

Selah!

San Jose Times.]

Yes, selah means hallelujah. It is also used by modern newspapers as a synonym for "amen." The last word, "selah," "so let it be," "so mote it be," "put up a fence and call me glad."

Prince Alexander, late of Bulgaria, was the favorite nephew of the Empress Maria, mother of the present Czar. In her will the Empress left the Prince 2,000,000 roubles, but the latter refused to receive the principal, preferring to draw the yearly interest from it, which was regularly paid him out of the Russian treasury. It is said the Prince now demands the two millions, and that the Czar declares he will never see a rouble of it.

How About the Robust Lynch?

San Francisco Examiner.]

The Democratic party of California sharply represents the spirit of antagonism to corporative greed and arrogance, and, as no other State has more keenly felt the presence of the yoke, the people will be quick to recognize their champion and opportunity.

THE NUBBARD TRACT

Is by all odds the cheapest and most desirable tract on the market for the money. You can have the lots for only $175, and upwards, and each lot is covered with choice bearing grape vines, the streets lined with pepper trees, and graded. This property is advancing in value every day, and all we would ask of you is to examine it before you purchase elsewhere. We wish to give you figures, and you will be convinced of it. You have heard that Los Angeles is growing southwest, and such is most assuredly the case. Look into the matter, and you will find this tract is being surrounded by our city. The soil is perfect; water pure, and the neighborhood as charming as a picture, and from this point you have the finest view of the mountains to be obtained in the county, and most every summer day, commencing about 11 a. m., a refreshing breeze. Just think! you can get lots here for only $4 per front foot. You can have them for $20 cash, and installments of $10 per month, without interest. The tract is a few minutes' walk from the Electric road, on Pico street or the proposed one on Adams street; or the horse car line to be built on Washington street, and you have good schools and churches, etc., close at hand. I am in from 9 to 12 a. m., and will take you out with pleasure at 2 p. m.

NEIGHBORHOOD NEWS.

POMONA.

THE CITY GUARD—A BAD INDIAN.

Correspondence of the TIMES.]

POMONA, Sept. 9.—At the meeting held at Kessler Hall, last evening, by the City Guard, much enthusiasm was displayed, and a certain determination of the members to stick to the company. It was voted unanimously that the members purchase their own uniforms. A committee was appointed to purchase them; also, committees appointed to make immediate arrangements for a grand military ball for Thanksgiving evening. This is the first military entertainment, and is sure to meet universal favor. Next Tuesday the regular weekly drills will be resumed.

This morning, about 1 o'clock, Night Watchman Scrimminger was attracted by the Palmer block by various noises of breaking glass and furniture. He found in the ell an Indian, minus his war paint, except inside, busily engaged throwing Dr. Parr's furniture and household goods from the second story into the back yard, each piece after striking being no use except for kindling wood.

For what purpose these actions were is a mystery to all. A lantern was taken from the Central Hotel to light the stray one on his way through the fog and darkness, Constable Scrimminger has the "fiend" safely housed, awaiting the return of Justice Firey. The Doctor will be on hand and give some practical assistance to the prosecution, regretting the while he was not at home to indulge in a little target practice or cowhiding.

"Where is the depot going?" This is heard on all sides. Not having noticed one rounding the curve at Spadra or coming down the grade from Ontario, we can't state positively, but we are of the opinion that it's going where the S. P. wants it.

Pomona had a fog Monday morning, so that one of our oldest citizens coming to town on a well beaten road about 6 o'clock, lost his way. Fortunately, he laid his course south for the railroad track, which he followed into town, arriving safely but slightly delayed.

Mrs. C. T. Mills, of Mills Seminary, again pays Pomona a short visit, taking apartments at the Palomares. TRUM.

PASADENA.

OPENING CEREMONIES—CARPENTERS' TROUBLES, ETC.

Correspondence of the TIMES.]

PASADENA, Sept. 29.—The opening of the Pasadena Street Railroad Company's line on Fair Oaks avenue to-morrow will be commemorated by a ride over the road and a dinner at the Grand Hotel, tendered by the company to members of the City Council and a few other citizens.

Pasadena has been connected by telephone with San Bernardino.

Mrs. E. C. Webster has returned from the East.

J. H. Painter has sold his fine home place on Monk Hill to R. Lambert for $8,000.

F. G. Wooster has built three houses, two offices and one store here during the present year.

H. Holbrook has opened a grocery on Fair Oaks avenue.

The big purchase of foot-hill land by the Webster & Co. and Woodbury syndicate is exciting considerable discussion. An electric or cable railroad to the foot of the mountains is now sure to be built by the syndicate.

The carpenters and joiners have replied to the resolutions of the contractors, denying that they propose to strike or that they have demanded an increase in wages. They affirm that, while a reduction in the hours of work has been demanded, and that the union has not attempted to fix wages.

Geo. Kienly is building a real estate office on Fair Oaks avenue.

H. J. Holmes's new building on Fair Oaks avenue has been leased by the school trustees for the pupils of Miss Vore's room, and the grade to be formed for the teacher to be employed.

ORANGE.

PERSONAL—THE NEW SCHOOL-HOUSE.

Correspondence of the TIMES.]

ORANGE, Sept. 28.—Miss Lizzie Wood, one of the types of the Santa Barbara Press, is visiting her father, Dr. Wood, of this place.

Mrs. Bond, of Santa Barbara, and her daughter, Miss Carrie, are visiting friends here.

Mr. and Mrs. Rogers, on their return from their wedding tour, were given a surprise party by their friends. The couple will commence housekeeping in their new home at Garvanza in a few days.

The Baptist evangelical meetings, held in a tabernacle put up for that purpose, are well attended and very interesting. It is uncertain how long they will continue.

The new school-house is nearly completed, and will be a very ornamental building. The carpenters certainly have done an excellent piece of work in putting up so fine a structure in so short a time.

Modena had its wedding last week, McPherson is expecting one very soon, and Orange bids fair to have one or two more in the near future.

The annual election of the stockholders of S. A. L. Company will take place at the Water office Tuesday, October 5th. At this meeting five directors are to be elected, and the question of raising money for ditch improvements is to be voted upon.

BEAUMONT.

Correspondence of the Times.]

BEAUMONT, September 29, 1886.—I note an article in your issue of September 23d, headed "Opinions and Facts," from your Annandale correspondent. However good the opinions may be, some of the facts are not facts. That is the statement. "The folks at the Summit, or the town of Beaumont, as it is called now, are trying to eject some old settlers from lands on which they have been for years," etc. Your correspondent did not probably intend to misrepresent any person at Beaumont, or any one connected with the Beaumont Colony enterprise, but he has done so nevertheless, as it is a fact that no person at Beaumont or connected with the Colony there, is in any way responsible or interested, in the ejectment of any squatters from the Indian Reservation east of the San Gorgonio Valley, as your correspondent could have known had he inquired into the facts. In the future we hope he will be careful to give facts, for they are stubborn things. S.

FINANCE AND TRADE.

OFFICE OF THE TIMES,
Los Angeles, Wednesday, Sept. 29.

Eggs are in good supply, and the price, 30@32 cents, is higher than is usual at this time of year. The average price during this month is over 30 cents, which is considerably higher than the average figures during corresponding months for several years past. The high price of Eggs causes more or less of a scarcity of Poultry, there being more money just now in Eggs than in Fowls. Ducks, however, are plentiful and prices low.

The market is well supplied with Northern Potatoes, but most of them are in bad condition. They sell at from $1.25 to $1.50, according to quality. The local Potatoes in the market are the Peerless, Snowflake and Irish Beauties. They generally sell at somewhat higher prices than the Northern, being better than the latter, which as a rule are not fully matured. There are, however, some few lots of Choice Northern which are sold at fancy figures. It is thought by many that the local Potato crop will be short this season, but this is probably a mistake. The first of the crop does not pan out very well in some sections, it is true, but indications are that the full yield of the season will be quite up to the average, if not above it.

Choice Butter is scarce and firm, Choice Northern selling at 57½@60 cents per roll, with sales of the best generally at the latter figure, while Good to Fair brings 55@57½ cents.

In Honey dullness and low prices still rule. Sales are few and generally at bottom prices, 3 cents being the general figure. Of late a better feeling in the market has been reported from San Francisco with some sales for foreign account, but it seems to be pretty well understood here that the market in Europe, and especially that of London, is still fairly supplied with last year's product, and the prospect of large orders from abroad is not flattering at present.

Stocks and Bonds.

By Telegraph to The Times.

NEW YORK, Sept. 29.—Government bonds dull but strong.

The New England deal monopolized much attention in Wall street on the past week, that stock being comparatively quiet until late in the afternoon, and its best price was only fractionally higher than that of yesterday; and, notwithstanding that its first price was ½ higher than the closing figure this evening, its net gain for the day is only ¼ per cent. The feeling this morning was decidedly bullish, and Vanderbilts became the feature of trading, Canada Southern and Michigan Central attracting the most attention, although Lake Shore was prominent and strong. Prices were all higher at the opening, advances over the final figures of yesterday ranging from ¼ to ¾ per cent, generally, while New England was up 1½. There were some fluctuations in early dealings, but the market soon became strong, lead by Vanderbilts. The upward movement culminated about 11:30, by which time Canada Southern had gained 1 per cent and others in proportion. The market thereafter fluctuated within comparatively narrow limits, though the general action of prices was slightly downwards, and the market closed rather heavy.

Money on call, 5@10 per cent., closing at 8 per cent. asked.

Prime paper, 4@5.

Sterling exchange: Qui t, strong; actual rates, $4 82½ for 30-day bills; $4 84½ demand.

THE NEW CHARTER.

Important Meeting of the Committee Last Night.

THE CITY'S CHIEF NEEDS DISCUSSED.

The Question of Having Fewer Councilmen and Paying Them—City Elections—Living Salaries to City Officers, Etc.

The Citizens' Committee on the proposed new city charter met in the Mayor's court-room at 7:30 last night. Albert M. Stephens, chairman, called the meeting to order, and called for the report of the sub-committee to whom had been delegated the task of drafting the charter.

Those present were R. W. Pridham, J. B. Toberman, E. F. Spence, B. Cohn, A. M. Stephens, C. N. Earl, H. D. Barrows, D. McGarry, H. T. Hazard.

B. Cohn, chairman of the sub-committee, presented a printed report of the charter, printed in legal form. He said he had furnished each member of the Council with a copy; also the Mayor and several prominent citizens, and the Mayor of Oakland. The report covers fifty pages in brief form.

"The committee met," said Mr. Cohn, "and decided that I should draw up a charter and submit it to the Committee of the Whole.

Ex-Mayor J. B. Toberman suggested that the proposed charter be read and acted upon by sections.

Mr. Cohn suggested that the Legislature must pass a law that cities of 40,000 population must be of the second class. Then the cities of Los Angeles and Oakland can apply for their respective charters.

Mr. Toberman moved that the Secretary read the report, section by section, and that the Committee of the Whole act separately upon each section. Carried.

The Secretary then read section No. 1 of article I, which, on motion of Mr. Toberman, was adopted. It specifies that the city is a municipal corporation and cannot hold property outside of its limits except for special purposes, such as land for irrigation, industrial schools, etc.

Section No. 2, Article I, provides for the recording of the city map. Mr. Cohn explained that the south lines of the city boundary vary some four hundred feet, as some of the different surveyor's instruments "wobbled." The section was adopted, which settled the line.

Article II was then taken up.

Section 1 changes the municipal election from December to May, as the latter period is at the close of the fiscal year. The section was adopted.

Section 2 elicited a long discussion. It names what officers shall be elected and the time they shall serve.

Mr. Cohn explained that it was his original idea to have ten members in the Council, three of whom were to form an executive board. He favored passing the section.

Mr. Toberman and Mr. Barrows insisted on a further discussion.

The chair decided that the Barrows amendment was in order, but as no one seconded it, it was not put before the committee.

Mr. Toberman favored the idea that no Councilman should hold over two years.

Mr. McGarry moved to amend the section by making it provide for ten Councilmen, instead of five. No second.

Mr. Barrows offered a written amendment to the effect that there should be two bodies in the Council, the legislative and the executive, the latter to do the detail work with the advice of the former. Not seconded.

Mayor Spence said it is not safe to trust the interests of the city to five men. A corrupt scheme could not be gotten through the present Council. It is too large.

Dr. Widney said the law embodied in the Barrows' amendment would have to be very carefully framed or the two bodies of the Council would clash. The larger body would attempt to control the smaller one.

Mr. Cohn—The large body could originate the bills which would go to the higher body for approval, who could return it in the form of an act.

Dr. Widney—There is one thing I wish to call attention to before we proceed further, and that is no provision is made for a Board of Health. If it is to be elected it should be placed in this section. It should be composed of physicians, or, at least, have some on it. Now there is not a physician on it.

Mayor Spence—How about Dr. Sinsabaugh? [Laughter].

Dr. Widney—A few years ago we had a small-pox scare. There was not a doctor on the Board, and twenty-five or thirty thousand dollars spent might just as well have been thrown in the fire. That Board of Health was the laughing stock of the physicians. If one doctor had been on that Board that money might have been saved.

Mr. McGarry—The proposition of Mr. Barrows looks too much like a Senate and a lower house.

Mr. Toberman—If the Councilmen are elected from the city at large, instead of from the different wards, as now, they will feel more interest in the whole city. Now all their constituents and interests are bound up in their respective wards.

Dr. Widney called attention to the lack of grammar in Section 1 of Article II, and suggested that the section be corrected.

Mr. Pridham moved that the section be amended to give the Council power to appoint a Board of Health, to consist of five physicians.

Mr. Cohn—The whole section might be passed on by a special committee.

Mr. Earl—If the School Superintendent is elected, as contemplated by this section, there will be no harmony between him and the Board of Education. The latter must have the full confidence of the former.

Mr. Pridham—If the questions of the appointment of a Board of Health and a School Superintendent were settled, would it not leave Section 2 in a condition to be passed?

Dr. Widney favored the passing of the section till it could be framed better.

Mr. Stephens suggested that the idea of two houses in the Council ought to be disposed of.

Dr. Widney moved that the section be referred to Messrs. Spence, Cohn and Barrows for revision, and to report at the next meeting.

Section 3 was next considered. It provides that the Council should be in session each day except Sunday, Christmas, New Years, Thanksgiving and Fourth of July.

Mayor Spence—Where's the 17th of Ireland?

Mr. Stephens suggested that "legal holidays" be substituted for the days mentioned in the section after the word Sunday. The suggestion was adopted by a vote.

The next paragraph of Section 2 provided that all public offices should be kept open from 9 a. m. to 5 p. m.

Mr. Hazard did not believe that was good. No business man can stay in his office those hours for $5,000 per year.

J. W. Potts—A man can't be expected to stay in his office *all* day.

Mayor Spence—The Mayor should be accessible at all hours. I never go to the barber shop or to lunch without leaving word where I can be found. I am often roused up at midnight, but then I am ex-officio judge, and the Court follows me.

Mr. McGarry—I think the hour question should be applied only to Councilmen.

Mr. Hazard moved that the words "between 9 a. m. and 5 p. m." be stricken out. Seconded by Mr. Earl. Carried.

Dr. Widney moved to adopt section 3 as amended. Carried.

Section 4 relates to vacancies and how they should be filled.

Mr. Pridham offered as an amendment that "all vacancies be elected by the Council."

Mayor Spence's objection was it would give the Mayor too much power to allow him to fill vacancies as provided for by the section as it then read. The Council represent the people; let the people fill the vacancies.

Mr. Stephens—Put it in the hands of both the Mayor and Council.

Mr. Hazard moved that the power to fill vacancies be delegated to the Mayor and Council.

Mr. Earl called attention to the fact that section 9 provided for this.

Dr. Widney—I find that section 9 is in direct conflict with section 2.

Mr. Barrows—It is a plain conflict.

Mr. Hazard moved that in a vacancy in the Board of Education the Board elect its own members.

Mr. Toberman favored the idea that if vacancies be filled by appointment, it should be done by the Mayor, but if they are to be filled by election, it should be done by the Council or the people.

Mr. Hazard then offered the following written resolution.

Resolved, That in case of a vacancy in the Council the vacancy shall be filled by the Mayor and remaining Councilmen; a majority of their votes shall suffice for an election; and in case of a vacancy in the Board of Education the remaining members of the Board shall fill the vacancy.

Ayes—Pridham, Earl, Barrows, Hazard and Stephens—5.

Noes—Toberman, Spence, McGarry and Cohn—4.

Dr. Widney was excused from voting.

Mayor Spence said the adoption of this resolution would cause him to oppose the whole new charter.

Section 5 was then considered. It regulates bondsmen, etc.

Mr. Hazard moved that when the Council demand an additional security the officer-elect shall, within ten days after notice, furnish such additional security or the office may be declared vacant. Carried.

Section 6 was adopted as read, relating to the duties of officials.

Section 7 provides for the appointment of a City Attorney.

Mayor Spence approved the proposition.

Mr. Hazard approved it. The City Attorney should not be under the influence of the Council.

Mr. Cohn—This is done to prevent the Council from paying a lawyer a fat salary and then going to another man and paying another lawyer for advice. The present Council paid Williams $1000 to open Los Angeles street, and it is not open yet. There is no use to elect a City Attorney; appoint one in whom you can have confidence.

Dr. Widney—It is just like a man employing an attorney. The city is an incorporation, and can seek advice of whomsoever it pleases, and employ its own attorneys.

Mr. Hazard—There is a difference. The city elected me as its attorney. There were great differences between us. The City Attorney may have occasion to evoke the law.

Mr. Stephens—Could the City Attorney commence a lawsuit on his own account?

Hr. Hazard—No.

Mr. Pridham favored the appointment. An incorporation can employ whom it likes, and should have its choice.

Mr. McGarry—The Council should be allowed to appoint its own lawyer, because it can select one in whom it has confidence.

Mr. Stephens—In the past the City Attorney has always been compelled to get extra help. The city should be allowed the same privilege as a bank.

Mr. McGarry moved to adopt the section.

Mayor Spence favored reducing it optional with the Council to fix the compensation of appointed officials, which was agreed to, and Section 7 was adopted.

Section 8, dividing the city into five wards, was adopted.

Section 9 referred to the disabilities of officials.

Dr. Widney moved that this section be referred to Judge Stephens for revision. Carried.

Mr. Toberman moved that sections 9 and 4 be merged. Carried.

Section 10 was adopted as read.

Section 11, relating to salaries, was partially acted upon.

J. W. Potts suggested that in section 7 no time had been fixed for the service of appointed officers.

Mr. Toberman moved that it be during the "pleasure of the Council." Carried.

Dr. Widney—The Mayor is the civic head of the city. He has social duties which require the expenditure of money. He should have a good salary.

Mr. Toberman — The Mayor should have $3600 per year.

Mayor Spence—The Mayor should retain the power of veto and the office of City Judge. The latter gives him a thorough insight into the affairs of the city.

Mr. Cohn moved the questions of the Mayor's salary and of City Judge and City Attorney be passed for further consideration. Carried.

The salaries of several officers were then fixed as follows: Treasurer, $1500; Assessor, $4500; Tax Collector, $3500; Chief of Police, $2000; City Auditor, $2500; policeman, $1000; mounted police, $1200. The section, as far as it had been discussed, was then adopted.

When the office of City Engineer was reached Mayor Spence asked if something could not be done to restrict the heavy expenses of this office.

Mr. Cohn—No. That office of Fred Eaton will cost the city $75,000 before he gets through. If a grade is to be established it takes twenty men, and he goes before the Council and gets them employed. There is no way to stop the expense.

Mr. Hazard: Why, he is raising the sidewalks all over town. Why is that?

Mayor Spence: Ask me something hard.

Mr. Cohn: Oh, that's to accommodate the railroads.

The salary of the School Superintendent was passed.

Dr. Widney favored the election of a Board of Regents for the City Library separate from the Council. The latter are worthy business men, too practical to be litterateurs.

The Committee then adjourned till next Tuesday at 7 o'clock P. M.

RAILROAD MATTERS.

Grapes Being Shipped East by the Cold Storage Process.

There is no sensation in the local railroad circles these days. The officials and subordinate employes are busy with their routine work, which is not enlivened by anything extraordinary. There is a steady movement of through freights, which has increased a trifle since summer. Fruit shipments amount to nothing.

Yesterday, the California Southern shipped two carloads of grapes to Chicago. One car was loaded on the "cold storage" plan. That is, the grapes were placed in a cool apartment, where the temperature was kept at 50 degrees for thirty-six hours. They were then placed in a car especially prepared for them, and the temperature is to be kept at the same point to the journey's end. A telegram from Barstow yesterday noon announced the car at that place had a temperature of 45 degrees. A man went with the car to keep the temperature regulated. The time to Chicago will be eight days. An attempt was made some two weeks ago to send a "cold storage" car through to Chicago, but it failed for some reason. If the experiment proves successful, of course more will follow.

"El Gubernador."

"El Gubernador," the huge engine of the S. P. R. R., which is an object of general admiration, is said to be the largest locomotive in the world. It is as symmetrical as it is ponderous, and W. R. Kelley, who handles the lever, is mightily proud of his mammoth pet. He had a fine photograph of "her" taken, and sent it through Bartlett Bros. to Eastern engravers, who have reproduced the picture upon the gold case of a superb watch. It is one of the finest pieces of engraving ever done on gold in this country—fine as steel-plate. Above the engine is the emblem of the Knights Templar, and below is the monogram of Mr. Kelley. He had another case similarly engraved for a friend. The cases can be seen at Bartlett's.

Highly Honored.

Hon. John F. Swift, our next Governor, paid the St. Elmo Hotel a very high compliment before leaving, and there is no doubt that it was well deserved. "In my travels," said Mr. Swift, "I have visited many hotels, but never have I found the superior of the St. Elmo."

This is a compliment that Mr. Ford can well feel proud of, for the reason that Mr. Swift, having visited almost every quarter of the globe, has necessarily sampled hundreds of tables.

Improvements by the Southern California Land Co. (Baker Block)

COUNCIL.

Lack of a Quorum Defeats Important Business.

The adjourned meeting of the City Council took place last night at 7:30 o'clock, President Sinsabaugh in the chair. There were present Messrs. Johnson, Jones, Frankenfield, Stearns, Sinsabaugh, Willard, Petry and Goss.

The President said that the object of the meeting was to hear the report of the Committee on Building, with regard to the acquisition of a lot for city hall purposes.

There had been received by the Clerk three other proposals, which the Council directed should be read. They are as follows:

From Elizabeth H. Howard, offering to sell her lot at the northwest corner of Main and Fourth streets, 130x135 feet, for $35,000, without the improvements.

From H. W. Heilman, offering: First—Lot at the corner of Fourth and Spring streets, 105x130, with brick building at corner, for $70,000, with the right reserved of removing all frame buildings; second—Offering the above with an adjoining lot fronting 45 feet on Fourth street and 150 feet deep, with the same reserve as to frame buildings, for $77,500; third—Same lot and brick building as in first proposal, with adjoining lot 90 feet on Fourth street and 150 feet deep, with same reserve, for $85,000.

From J. S. Slauson, offering lot on southwest corner of Hill and Sixth streets, 168x150, with a 20-foot alley behind, for $34,000.

The Committee on Building reported recommending that all proposals excepting those of Messrs. Wicks & Mills, Hall & Copely, and the verbal offer of A. H. Denker be rejected, and that these three be given further consideration by the Council.

On motion of Mr. Frankenfield, the proposals of Mrs. Howard, Messrs. H. W. Heilman and J. S. Slauson were ordered referred to the Committee on Building to report upon. Carried.

Mr. Graves stated to the Council that if the property offered by Messrs. Wicks & Mills was taken by the Council, they would virtually sell it for $55,500. M. L. Wicks spoke similarly.

Mr. Jones favored awaiting the arrival of some more Councilmen in preferance to acting hastily upon so important a matter.

On motion of Mr. Stearns a recess of ten minutes was taken to allow the Chief of Police an opportunity to hunt some more Councilmen.

At 8:30, no more Councilmen having arrived, the President called Council to order, and Mr. Frankenfield moved that an offer of $300 per foot be made to Messrs. Wicks & Mills for their property, equal to $54,000.

Mr. Johnson seconded the motion, which was carried by eight ayes, the full number present.

Mr. Wicks said that, if the President would send for enough Councilmen to pass definitely upon the proposition, he would accept the offer made.

The Chief of Police reported that Mr. Santee was in Boyle Heights, Mr. Holbrook couldn't be found, Mr. Biscailuz was no one knew where, but Mr. Velair would soon arrive.

Mr. Perry moved to adjourn to 3:30 p. m. to-day, and Mr. Goss moved that all Councilmen be notified to be present at the meeting without fail, in view of its importance. Adjourned.

PERKINS VS. BALDWIN.

The Smoldering Case Again Bobs Up to View.

Last night, at 7 o'clock, was set for argument on motion for a new trial in the famous case of Perkins vs. Baldwin. At that hour appeared before Judge Cheney some of the counsel for each side Stephen M. White for Miss Perkins, and Judge Walter Van Dyke, B. W. Lee and Colonel James G. Howard for Baldwin. After an informal discussion, it was decided that the case should be presented on briefs. Judge Cheney gave twenty days to Baldwin's counsel to prepare a brief in support of their motion for a new trial; twenty days further to Miss Perkins's counsel to file their answer, and ten days on top of that for Baldwin to speak back. In case of necessity, the Court will allow each side an hour or two for oral argument. The briefs are preferred in the presentation of the case, which was not originally heard by Judge Cheney.

New To-Day.

Platform of the American Party,

ADOPTED AT THE STATE CONVENTION held at Fresno, september 28, 1886.

1. We reiterate and indorse the doctrines promulgated by the Executive Committee of the American Party.

2. Believing that Americans should rule America, we favor the education of American youths, boys and girls, as artizans and mechanics, so as to fill the places of foreigners who now have nearly the exclusive control of all the great industries of our country, save agriculture alone.

3. Bossism in politics is the outgrowth of foreign influence. We condemn it and declare that the American Party has not, and shall not have bosses.

4. The waters of the State belong to the lands they will irrigate; and we favor a broad and comprehensive system of irrigation to the exclusion of the so-called rights of riparian and appropriation. A system controlled by the Government, free to all; under the control of no class of persons, and established and maintained by a revenue derived from those only whom the system will benefit.

5. We believe in equal taxation, and to accomplish that desirable reform, we favor the reduction of taxes on the real estate of the cultivator of the soil, and the laying of additional burdens on the luxuries.

6. We would foster and encourage American industries, and to that end would protect home productions and manufactures, and inaugurate and maintain a system that would not only exclude the cheap labor products of other countries, but would also exclude the cheap laborers of all other countries, and prevent them from coming here to compete with Americans.

7. We believe that American free schools are indispensible supports to liberty; that reason and experience both teach us that national existence depends on the influence of liberal and refined education.
